Dear Madam or Sir:

I, Dale C. Barr, represent that I am the attorney of record for the above-identified application. On information and belief, The Boeing Company, a corporation of the State of Delaware having a place of business at 100 North Riverside, Chicago, IL, 60606-1596, is the assignee and owner of the entire 100 percent interest in the instant application. The Boeing Company hereby disclaims the terminal part of any patent granted on the above-identified application which would extend beyond the expiration date of the full statutory term of any patent granted on pending reference Application Number 10/811,529, entitled "Adaptable Payload Apparatus and Methods," and pending reference Application Number 10/811,771, now issued as U.S. Patent Number 7,051,978, entitled "Adaptable Payload Processes." No disclaimer is made for any terminal part of any patent granted on the above-identified application prior to the expiration date of the full statutory term as presently shortened by any terminal disclaimer of any patent granted on pending reference Application Number 10/811,529 and any patent granted on pending reference Application Number 10/811,711, (namely, U.S. Patent Number 7,051,978) in the event that any of the patents granted on the pending reference applications later expires for failure to pay a maintenance fee, is held unenforceable, is found invalid, is statutorily disclaimed in whole or terminally disclaimed under 37 C.F.R. § 1.321(a), has all claims canceled by a re-examination certificate, or is otherwise terminated prior to the expiration of its statutory term as presently shortened by any terminal disclaimer, except for the separation of legal title stated above.

The undersigned represents that he is an attorney of record for The Boeing Company and has the authority to execute this document on behalf of The Boeing Company. The undersigned further declares that all statements made herein of his own knowledge are true and that all statements made on information and belief are believed to be true; and further, that these statements were made with the knowledge that the making of willfully false statements and the like is punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and may jeopardize the validity of any patent issuing from this patent application.

Respectfully Submitted,
